

Topic learning- Monday 11th January

LI: To be able to describe a structure.

These are the main parts to the structure of a castle.

Here are some examples of different castles. You could google some different castles from around the world.

Your task.

Make a castle using whatever you have in your home.

Blocks, lego, junk modelling, lollypop sticks, k'nex, furniture, boxes, card, paper, arts and craft materials. Here are a few examples but let your creative ideas flow.

Remember to include all the features.

Use sticky post-it notes or paper to label the parts on your castle. Take a photo of your learning and send it to your teacher. We will look forward to seeing what you create.
