

Outside area task

We have been busy clearing under-used areas of the school. The two covered outside areas have had a clean and tidy.

This one is outside the Tiger classroom.

This one is outside Lion Class.

Task:

We would like you to draw a design with ideas to make these

learning areas more inviting. Think about learning resources, storage, furniture and how to make it a little warmer and cosy. It has a roof and we could hang things from it. Please label all of your picture and write a short description of what is in there.

We want to make this an exciting, comfortable and unique learning area. You have until the 25th February to send us your ideas.
