

Hello, my name is Mr Hazell, and I am going to be working with you in Ducklings Class until March.

I am a student, just like you! But I'm studying early childhood education at university, which is a kind of school for grown-ups.

I am very happy to be working with you and Mrs Raya and learning together!

This is a picture of me and a monkey that I met in Indonesia! She loved the banana I gave to her.

Monkeys like to eat nuts, fruit, seeds, and flowers. Some monkeys also like to eat small insects and spiders. What kind of food would you give to a monkey?

My favourite colour is green, I love eating vegetables, and I love to travel and have visited lots of different countries. I used to live in a country called China and worked there with children just like you!

I love music, I can play the drums and like to make music with my computer.

I hope we can sing together every day and make amazing music together. Tell me what your favourite song is, and maybe we can sing it together!

I love to read stories! If you show me your favourite story book I will be happy to read it together with you.

This is a picture of my sister's cat. Her name is Zelda. Do you have a cat at home?

My favourite animals are cats and gorillas. I would love to hear what your favourite animal is!

See you soon

Mr Hazell
